# Solar lamp LED 30 W

## Panel 60 W

A solar lamp with a twilight sensor is a great way to illuminate your driveway, property, etc. The housing made of aluminum is very durable. The built-in dusk sensor, solar panel and battery prevent the lamp from consuming electricity.

Tone:	6000-6500K
Panel:	60W, 18,2V, polycrystalline
Battery:	Lithium iron, 48ah, 12V
Charging time:	6-8h
Discharge time:	30-36h
Brightness:	3000 lumens
Material:	aluminum
Installation height:	5-7m
Certificate:	CE, RoHS, EMC, IP65

The lamp comes to you neatly packed.  
The carton includes:

- LED lamp,
- Solar panel,
- Battery,
- Lamp and panel holder.
